

How Many Ways Can You Pay for Cargo?

KINGSTON WHARVES LIMITED

Let us count the ways.

TOTAL LOGISTICS FACILITY

Our 160,000 sq. ft. Total Logistics Facility (TLF) is open for business, allowing customers the benefit of clearing cargo in a comfortable and friendly atmosphere.

Visit our offices at 195 Second Street, Newport West where one of our customer service representatives will process your shipping charges and get you on your way.

KINGPORT WAREHOUSE COMPLEX (KWC)

Kingston Wharves also provides warehousing and accepts payment at its Kingport Warehouse Complex, if this is the location stated on your Bill of Lading.

TINSON PEN

Tinson Pen is a new facility opened by Kingston Wharves for the warehousing and clearing of motor vehicles for the domestic market. Only credit and debit cards, cheques and direct deposits are accepted at this location.

You may also choose from a range of online payment options:

1 E-payment

Registered Kingston Wharves clients can visit our website at www.kingstonwharves.com.jm and select the e-payment menu item and be guided through the process.

2 Wire Transfers

We facilitate wire transfers directly through your bank to Kingston Wharves Limited.

In order to help us track your goods and match your shipment with the payment, after a wire transfer, send us a

confirmation of your transaction at kwfinance@kwljm.com or customer.services@kwljm.com. Include your:

- Bill of lading number
- The amount paid
- Customer/consignee information
- The bank from which the funds were sent

3 KWL Mobile App

KWL Mobile App is an exciting addition to our suite of online payment services. The App allows anyone to make a payment on a shipment, once he or she has the Bill of Lading number. To utilize the KWL mobile App:

- You must use an android phone
- Download the App from the Google Play Store
- Sign up with the Play Store. An automated message will be emailed to you to enable you to complete the sign up process.
- Register your credit card with the app. As a verification measure, a small amount will be charged to your card. After the charge is made, you are required to contact your bank or check its online platform for the amount. Enter the charged amount in the app to verify the card and complete registration.
- For your security and safety, your credit card number will not be retained on your phone. Therefore, for each transaction, your card number must be re-entered, but no additional verification of the card is necessary.

About Kingston Wharves Ltd.
