KINGSTON WHARVES LIMITED

Kingston Wharves Limited recently unveiled US\$60 Million in infrastructural development initiatives as part of the progressive expansion of its port terminal and logistics services business, and to better position itself for emerging nearshoring opportunities.

The construction of the company's integrated modular logistics complex at Ashenheim Road in Kingston was among the initiatives unveiled under the patronage of Jamaica's Prime Minister the Most Hon. Andrew Holness.

As observed by the Prime Minister at the ground-breaking, the project represents "serious investments" in Jamaica by Kingston Wharves within the context of its slate of previous major development projects.

This state-of-the art integrated modular warehouse complex is a key pillar in the expansion of the company's logistics services offering and positioning to realise nearshoring opportunities. This development is critical, given the reconfiguration of the global supply chain post COVID-19 and Jamaica's ongoing drive to become the s logistics hub of choice for the region.
